Cheque Deposit Kiosk (CDK)

Effortless. Secure. Automated

Enable 24/7 Cheque Deposits

TouchPoint
Enabling Transaction Convenience

Cheque Deposit Kiosk (CDK)

Effortless. Secure. Automated

TouchPoint's Cheque Deposit Kiosk (CDK) is a smart self-service solution designed to automate and streamline cheque deposit processing. Powered by the QMatch Digital Platform, it enables real-time validation, intelligent fraud detection, and seamless integration into core banking systems — reducing operational load and enhancing customer convenience.

Security & Compliance

Fraud Prevention

- ✓ Detects forged or photocopied cheques
- ✓ Validates cheque integrity (e.g., double feeding, incorrect sizes)

Clearing House Compliance

- ✓ Captured images meet regulatory and clearing house standards

Capacity

Holds up to 600 Cheques

- ✓ High-volume processing for busy branch environments
- ✓ Optimized for uninterrupted customer flow

Key Features

Front, Back & UV Image Capture

- ✓ Captures high-resolution images of the cheque's front, back, and UV layer
- ✓ Supports digital archiving, automated verification, and clearing

MICR Line Reading

- ✓ Reads MICR data including cheque number, account number, and bank code
- ✓ Enables accurate and efficient back-office processing

QMatch Platform Integration

Real-Time API Connectivity

- ✓ Direct integration with banking systems via QMatch
- ✓ Enables instant transaction posting, verification, and reporting
- ✓ Simplifies reconciliation and minimizes manual errors

Why Choose CDK?

24/7 Customer Access to cheque deposit services
Reduced Counter Traffic and manual workload
Enhanced Risk Mitigation through automated validation
Digital-First Experience, aligned with your branch transformation goals

Digitize Cheque Deposits Today
