Enabling Deposit Convenience

CADEPO - Cash and Cheque Deposits Machine (CCDM)

CADEPO is an advanced Cash and Cheque Deposit Solution powered by **QMatch** – Digital Platform designed to revolutionize branch operations by enabling instant, secure, and seamless transactions, CADEPO empowers banks to enhance customer satisfaction and operational efficiency.

Key Benefits

1

24/7 Availability: Enable round-the-clock deposits for enhanced customer convenience.

2

Enhanced Efficiency: Reduce in-branch traffic and operational workload.

3

Cost Efficiency: Reduces operational expenses and improves branch efficiency.

4

Development Flexibility: Cadeпо offers customizable features and seamless integration capabilities.

5

Secure Transactions: Powered by advanced QMatch 2.0 Digital Platform, utilizing TLS encryption and tokenization for secure transactions.

6

Multi-Functional Capability: Handles cash and cheque deposits effortlessly.

7

Real-Time Integration: Seamlessly connects with core banking systems via QMatch digital platform.

Features & Capabilities

High-Speed Deposit

- ✓ Processes up to 720 banknotes per minute with a large 500-note infeed hopper, minimizing deposit time.
- ✓ High-speed processing ensures rapid and accurate transactions.
- ✓ Optimized transit paths and algorithms ensure an ultra-low jam rate.
- ✓ Features Serial Number Recognition for enhanced accuracy.

Storage Bag Capacity

- ✓ Secure storage bags with automatic closure.
- ✓ Holds 10,000 to 12,000 notes (model-dependent).

Enhanced Customer Experience

- ✓ Compact design tailored to Financial Service providers needs.
- ✓ Available with 18.5-inch vertical touch screens for seamless transactions.
- ✓ Customizable Interface, which is tailored to meet your bank's specific needs.
